**Storage Requirements for storage rooms and vessels:**

Always keep in containers of same material as the original one. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

**Advice on storage assembly:**

Do not store together with: Oxidizing agents

**Further information on storage conditions:**

Keep container tightly closed and dry in a cool, well-ventilated place. Protect from heat and direct sunlight.

---

**8. Exposure controls/personal protection**

**Exposure limit values:**

None.

**Exposure controls**

**Personal protective equipment**

**Respiratory protection:**

If workplace exposure limits are exceeded, a respiration protection approved for this particular job must be worn. In case of aerosol and mist formation, take appropriate measures for breathing protection in the event workplace threshold values are not specified.

**Hand protection:**

Sufficient protection is given wearing suitable protective glove checked according to i.e. EN 374, in the event of risk of skin contact with the product. Before use, the protective glove should be tested in any case for its specific work-station suitability (i.e. mechanical resistance, product compatibility and antistatic properties). Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves. Protective gloves shall be replaced immediately when physically damaged or worn. Design operations thus to avoid permanent use of protective gloves.

**Eye protection:**

Safety glasses (EN 166)

**Skin protection:**

Normal chemical work clothing. General protective and hygiene measures Do not eat, drink or smoke during work time. Keep away from foodstuffs and beverages. Wash hands before breaks and after work. Remove soiled or soaked clothing immediately. Wash soiled clothing immediately.
