Prevent spreading over a wide area (e.g. by containment or oil barriers).

Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up:

Soak up with inert absorbent material.
For Large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent.

Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur.

Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.

Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

7. HANDLING AND STORAGE

Technical measures :

See Engineering measures under EXPOSURE CONTROLS/PERSONALPROTECTION section.

Local/Total ventilation :

Use only with adequate ventilation.

Advice on safe handling :

Handle in accordance with good industrial hygiene and safety practice. Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage :

Keep in properly labeled containers. Store in accordance with the particular national regulations.

Materials to avoid :

Do not store with the following product types:
Strong oxidizing agents.

Engineering measures :

Processing may form hazardous compounds (see section 10). Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.

Personal protective equipment

Respiratory protection :

No personal respiratory protective equipment normally required.

Hand protection Remarks :

Wash hands before breaks and at the end of workday.

Eye protection :

Wear the following personal protective equipment:
Safety glasses.

Skin and body protection :
