

D25F

BARATRON[®] DUAL-RANGE MANOMETER TEMPERATURE CONTROLLED TO 100°C WITH TRIP POINTS

The Baratron[®] D25F Dual-range Manometer, an application-specific absolute capacitance manometer, is the latest addition to the MKS family of general purpose manometers. With two distinct measurement outputs, the D25F provides accurate, reliable, and repeatable pressure measurements for multi-step processes. The D25F is temperature controlled at 100°C, and is available in Full Scale ranges of 10, 100 and 1000 Torr, with a customer specified second output at 2, 5, or 10 times lower Full Scale. The lower pressure limitation of system A/D resolution is now minimized with higher output signal levels. The instrument operates with \pm 15 VDC (\pm 5%) input at 600 mA (max.), and provides two outputs of 0 to 10 VDC linear with pressure.

The D25F's sensor exposes only Inconel[®] to the process permitting the use with corrosive or dirty gases. Measurements are independent of gas composition. The D25F also features two trip point relays, each separately adjustable from 0.1 to 100% of Full Scale. Dual color LEDs indicate relay status. Typical relay uses include pump cross-over and valve activation. The modern stainless steel enclosure provides a cleanroom compatible product.

Features & Benefits

Accurate

- Second output provides greater resolution over the lower range of the instrument
- Percent of Reading accuracy for more repeatable output signal
- Provides improved sensitivity for system I/O architecture with limited A/D resolution
- Measures total pressure directly, independent of gas composition

Robust

- All Inconel corrosion resistant wetted surfaces
- Integrated sump (US Patent #5,822,685) provides particle protection

High overpressure rating for improved reliability

Compatible

- Cleanroom-compatible stainless steel package
- Compatible with earlier Baratron capacitance manometers, MKS power supply/readout modules and pressure controllers

Specifications and Ordering Information

| Full Scale Ranges | 10, 100, 1000 Torr | |
|-------------------------------|--|--|
| Resolution | 0.001% of F.S. | |
| Accuracy | 0.25% of Reading (including non-linearity, hysteresis, and non-repeatability) | |
| Temperature Coefficients | | |
| Zero | 0.002% of F.S./°C | |
| Span | 0.02% of Rdg./°C | |
| Ambient Operating Temperature | 15°C to 50°C | |
| Volume | 6.3 cc | |
| Warm-Up Time | 2 hours | |
| Overpressure Limit | 45 psia (310 kPa) | |
| Materials Exposed to Gases | Inconel [®] (Optional Fittings: 316 SS) | |
| Input Power Required | ±15 VDC ±5% @ 0.6 Amps (max.) | |
| Output Signal | Pressure: 0 to +10 VDC into > 10K W load; second output 0 to 10 VDC into > 10K W load over lower range | |
| Output Relays | SPDT contacts rated at 1 Amp @ 30 VDC or 0.5 Amp @ 30 VAC resistive | |
| Trip Point Level Signal | 0.01 to 10 VDC for each trip point (first output only) | |
| Compliance | CE | |
| Fittings | Standard: 1/2" (12.7 mm) tubulation; Optional: 8 VCR® female, Mini-CF, NW 16 KF, NW 25 KF | |

Dimensional Drawing — Note: Unless otherwise specified, dimensions are nominal values in inches (mm referenced).
